

The Principles of Art Therapy Certificate (formerly Art Therapy Certificate Foundation Course) is a QQI level 8 (10 credit course) comprising of two 5 credit assessed modules. This course provides an opportunity to explore Art Therapy within a group setting. Each weekend students will participate in experiential workshops with qualified arts therapists. A variety of approaches to the process of Art Therapy will be introduced through workshops, lectures and seminars.

- Each course weekend is themed around a key principle of the art therapy process. Lectures will explore how the process works in a range of contexts, and with clients of various ages, from Psychiatry, Probation, Palliative Care, Education, to Learning Disabilities. Topics vary from year to year.
- Workshops, delivered by qualified, registered arts therapists, will provide participants with experience of a range of different approaches to facilitating a group; directive, theme-based, non-directive etc.
- Seminars offer opportunities to ask questions and discuss ideas with visiting and course tutors.
- Participants are required to complete a couple of written assignments and keep a personal journal throughout the course.
- A QQI level 8 Principles of Art Therapy Certificate is awarded on successful completion of the course. (Special Purpose Award)

The experiential nature of this course can be emotionally and psychologically challenging. Applicants should be aware that the candidate's previous life experiences will be explored at interview with this in mind. Any concerns can be addressed at the interview.

The Principles of Art Therapy is not a prerequisite of the MA in Art Therapy or the Postgraduate Diploma in Play Therapy and MA in Creative Psychotherapy (Humanistic & Integrative Modality); nor does it guarantee an interview or entry to either of the MA trainings. It may however, be recommended to (or required for) prospective MA applicants as a preparatory training.
